ENTRY FORM PART II

Name and address of project:

Check the category for which your entry best qualifies:

- High-rise (7 or more stories)
- Low-rise (6 or less stories)
- Historic
- Industrial
- Masonry
- Parking structures
- Special Projects
- Transportation
- Water structures
(e.g. dams, conduits, reservoirs)
- Longevity (completed prior to Dec. 31, 2001)

Cost of project (in U.S. dollars):

Completion date:

Provide a description of the project.

Discussion should include (but not be limited to) the following information:

- Structure characteristics (size, construction, etc.)
- Problems that prompted repair
- Inspection/evaluation methods
- Test results
- Causes of deterioration
- Repair system selection (generic)
- Site preparation
- Demolition method
- Surface preparation
- Application method selection
- Repair process execution
- Unforeseen conditions found
- Special features that make the project worthy of an award

Provide photographs of the project.

Provide at least six (6) photographs showing special features of the repair. Before, during, and after shots are preferred (see number 5 on the page entitled "Rules"). Illustrations or construction details will be accepted in addition to the photographs.
